Design

Top of the line web and graphics applications, together with a highly trained web development team is our operation. We design and put together any information about you and your business in an appealing and presentable way that will differentiate you from your competition on the World Wide Web.

Web Design Rate

For static web design, content implementation, graphics/Photoshop design, flash, gif animation:
\$69/hr inclusive VAGST

Web Design Hosting

Web site hosting starting at \$34/month inclusive VAGST. For more details on web site hosting [click here](#).

Website Maintenance

Open source content management systems are available for your convenience at an affordable rate. The regular web design and database development rates apply for ongoing maintenance of websites. A re-design of an existing website depends on the magnitude of the project. Otherwise, the regular design rate will apply. However, with any updates we make on a website depending on the size of the project, the price range is from \$100 - \$400 per update.
